PETITIONS

WE WANT ISLAMIC FINANCE IN OUR BANK

We the undersigned would like <u>(bank's name)</u> to introduce Islamic finance products to its offering. Specifically, we seek to avoid interest in our lives and therefore require products that enable us to deal with your institution without dealing in interest.

Name:	Signature:

WE WANT ISLAMIC FINANCE IN OUR COUNTRY

We the undersigned would like the relevant governmental authority of <u>(country/s name)</u> to introduce Islamic finance to the country. Across the world, both in Muslim countries and non-Muslim countries, Islamic finance has become a viable reality. It is time it became a reality here. The many Muslims in this country are religiously obligated to avoid interest in their lives and therefore require institutions that offer products free of interest. Non-Muslims also recognize the benefits of interest-free institutions and the stability they bring to the economy. We ask that a timeline be issued indicating when the government intends to begin introducing Islamic finance.

WE WANT AAOIFI STANDARDS IN OUR ISLAMIC BANK

We the undersigned would like (bank's name) to certify that all the Islamic finance products offered to its customers conform to the standards of the Accounting and Auditing Organization for Islamic Financial Institutions (AAOIFI), the leading Islamic finance standard in the world and the de facto standard in over 90% of the world's Islamic finance jurisdictions. Decisions of Shariah panels inside banks are understandably not always made public knowledge, so having a third-party certification becomes an essential means by which new and existing customers decide on a bank and its products.
