About the Authors	xxvii
Part I: The Global Financial Environment	1
Chapter 1: Introduction	3
<i>Opening Case 1: TIAA-CREF Goes Global with Corporate Governance</i>	3
1.1 Reasons to Study International Finance	5
1.2 Company Goals and Functions of Financial Management	8
1.3 Multinational Companies and their Performance	10
1.4 Principles of Global Finance	14
1.5 Agency Theory and Corporate Governance	18
1.6 Environmental Differences	21
1.7 The Structure of this Book	23
<i>Summary</i>	23
<i>Questions</i>	24
<i>References</i>	24
<i>Case Problem 1: What Is a National Company?</i>	25
Chapter 2: Motives for World Trade and Foreign Investment	28
<i>Opening Case 2: The Effect of Foreign Investment on Exports</i>	28
2.1 Motives for Foreign Trade	29
2.2 Economic Integration	38

2.3	Motives for Foreign Investment	43
2.4	A Synthesis of Foreign Trade and Investment Theories	46
	<i>Summary</i>	47
	<i>Questions</i>	47
	<i>Problems</i>	48
	<i>References</i>	49
	<i>Case Problem 2: The Fruits of Free Trade Under the World Trade Organization</i>	49
Chapter 3:	The Balance of Payments	54
	<i>Opening Case 3: Opportunity Cost and Comparative Advantage</i>	54
3.1	An Overview of the Balance of Payments	55
3.2	Balance-of-Payments Accounts	57
3.3	The Actual Balance of Payments	63
3.4	How to Reduce a Trade Deficit	70
	<i>Summary</i>	72
	<i>Questions</i>	72
	<i>Problems</i>	73
	<i>References</i>	73
	<i>Case Problem 3: USA–China Trade Relations</i>	74
Chapter 4:	The International Monetary System	78
	<i>Opening Case 4: The Euro – A Story of Change</i>	78
4.1	A Successful Foreign-Exchange System	81
4.2	A Brief History of the International Monetary System	87
4.3	The International Monetary Fund	94
4.4	The European Monetary Union	98
4.5	Proposals for Further International Monetary Reform	102
	<i>Summary</i>	104
	<i>Questions</i>	105
	<i>References</i>	105
	<i>Case Problem 4: The Mexican Peso Crisis of December 1994</i>	106
Part II:	Corporate Foreign-Exchange Risk Management	111
Chapter 5:	The Foreign-Exchange Market and Parity Conditions	113
	<i>Opening Case 5: The Volume of Foreign-Exchange Trading</i>	113
5.1	Major Participants in the Exchange Market	115
5.2	Spot Exchange Quotation: The Spot Exchange Rate	120
5.3	Forward Exchange Quotation: The Forward Exchange Rate	125
5.4	International Parity Conditions	128
5.5	Arbitrages	136

<i>Summary</i>	142
<i>Questions</i>	142
<i>Problems</i>	143
<i>References</i>	145
<i>Case Problem 5: The Big Mac Hamburger Standard: February 2003</i>	146
Chapter 6: Currency Futures and Options	148
<i>Opening Case 6: Derivatives Risks</i>	148
6.1 The Currency Futures Market	150
6.2 The Currency Options Market	157
6.3 Futures Options	169
<i>Summary</i>	170
<i>Questions</i>	171
<i>Problems</i>	171
<i>References</i>	173
<i>Case Problem 6: Merck's Use of Currency Options</i>	174
Chapter 7: Financial Swaps	177
<i>Opening Case 7: Why have Gillette and GE Chosen a Higher Cost of Funding?</i>	177
7.1 The Emergence of the Swap Market	179
7.2 Plain Vanilla Swaps	183
7.3 Motivations for Swaps	187
<i>Summary</i>	191
<i>Questions</i>	192
<i>Problems</i>	192
<i>References</i>	193
<i>Case Problem 7: Regulations of Derivatives Markets</i>	193
Chapter 8: Exchange Rate Forecasting	196
<i>Opening Case 8: Mundell Wins Nobel Prize in Economics</i>	196
8.1 Measuring Exchange Rate Changes	197
8.2 The Forecasting Needs of the Multinational Company	199
8.3 Forecasting Floating Exchange Rates	201
8.4 Forecasting Fixed Exchange Rates	210
<i>Summary</i>	216
<i>Questions</i>	216
<i>Problems</i>	217
<i>References</i>	218
<i>Case Problem 8: General Motors Operations in Mexico, and the Peso Crisis</i>	218
Chapter 9: Managing Transaction Exposure and Economic Exposure	221
<i>Opening Case 9: Avon's Actions to Protect Against Volatile Currencies</i>	221
9.1 The Basic Nature of Foreign-Exchange Exposures	222

9.2	Transaction Exposure Management	226
9.3	Economic Exposure Management	233
9.4	Currency Exposure Management Practices	235
	<i>Summary</i>	238
	<i>Questions</i>	238
	<i>Problems</i>	239
	<i>References</i>	241
	<i>Case Problem 9: Western Mining's Economic Exposure Management</i>	241
 Chapter 10: Translation Exposure Management		243
	<i>Opening Case 10: Main Features of Accounting Exposure</i>	243
10.1	Translation Rules	244
10.2	FASBs 8 and 52	247
10.3	Hedging Translation Exposure	251
	<i>Summary</i>	252
	<i>Questions</i>	253
	<i>Problems</i>	254
	<i>References</i>	256
	<i>Case Problem 10: Dell Mercosur</i>	256
 Part III: The Global Financing Strategy		261
 Chapter 11: International Financial Markets		263
	<i>Opening Case 11: Foreign Investors Load Up with Asia's Shares</i>	263
11.1	Eurocurrency Markets	264
11.2	The Eurocurrency Interbank Market	269
11.3	The Asian Currency Market	274
11.4	The International Bond Market	276
11.5	The International Equity Market	281
11.6	Long-Term Capital Flows to Developing Countries	285
	<i>Summary</i>	286
	<i>Questions</i>	287
	<i>Problems</i>	288
	<i>References</i>	289
	<i>Case Problem 11: The Rise and Fall of the US Stock Market</i>	290
 Chapter 12: International Banking Issues and Country Risk Analysis		293
	<i>Opening Case 12: Argentina's Currency Crisis</i>	293
12.1	International Banking Operations	295
12.2	International Loans	298
12.3	Country Risk Analysis	309

<i>Summary</i>	314
<i>Questions</i>	314
<i>Problems</i>	314
<i>References</i>	315
<i>Case Problem 12: The World Bank</i>	316
Chapter 13: Financing Foreign Trade	319
<i>Opening Case 13: US Export–Import Bank Seeks Private Investors</i>	319
13.1 Basic Documents in Foreign Trade	320
13.2 The Payment Terms of Export Transactions	326
13.3 Sources of Financing Foreign Trade	333
<i>Summary</i>	339
<i>Questions</i>	340
<i>Problems</i>	341
<i>References</i>	342
<i>Case Problem 13: Arms Dealers Get Creative with Offsets</i>	342
Chapter 14: Financing Foreign Investment	345
<i>Opening Case 14: Failed US–Vietnamese Joint Ventures</i>	345
14.1 Internal Sources of Funds	346
14.2 External Sources of Funds	349
14.3 Development Banks	357
<i>Summary</i>	362
<i>Questions</i>	363
<i>Problems</i>	363
<i>References</i>	364
<i>Case Problem 14: IBM’s Strategic Alliances</i>	364
Part IV: Global Investment Strategy	367
Chapter 15: International Working Capital Management	369
<i>Opening Case 15: An Efficient Global Treasury Structure</i>	369
15.1 The Basic Concepts of Working Capital Management	370
15.2 Cash Management	382
15.3 Accounts Receivable Management	388
15.4 Inventory Management	389
<i>Summary</i>	392
<i>Questions</i>	393
<i>Problems</i>	393
<i>References</i>	395
<i>Case Problem 15: Navistar International’s Netting System</i>	395
Chapter 16: International Portfolio Investment	398
<i>Opening Case 16: LE Group Shows how Korea Inc. Might Restructure</i>	398
16.1 Key Terminology	400

16.2	The Benefits of International Diversification	407
16.3	Methods of International Diversification	413
	<i>Summary</i>	419
	<i>Questions</i>	419
	<i>Problems</i>	420
	<i>References</i>	421
	<i>Case Problem 16: Investing in DaimlerChrysler in the USA</i>	421
Chapter 17:	Corporate Strategy and Foreign Direct Investment	425
	<i>Opening Case 17: How Can Companies Get the Most Out of Their Foreign Investment?</i>	425
17.1	An Overview of Foreign Direct Investment	426
17.2	Foreign Direct Investment in Developing Countries	429
17.3	Cross-Border Mergers and Acquisitions	433
	<i>Summary</i>	441
	<i>Questions</i>	441
	<i>Problems</i>	442
	<i>References</i>	443
	<i>Case Problem 17: BP's Acquisition of Amoco</i>	443
Chapter 18:	International Capital Budgeting Decisions	447
	<i>Opening Case 18: External Factors Affecting Foreign Project Analysis</i>	447
18.1	The Foreign Investment Decision-Making Process	448
18.2	Portfolio Theory	458
18.3	Capital Budgeting Theory and Practice	460
18.4	Political Risk Management	462
	<i>Summary</i>	468
	<i>Questions</i>	468
	<i>Problems</i>	469
	<i>References</i>	471
	<i>Case Problem 18: Multinational Capital Budgeting Practices</i>	472
Chapter 19:	The Cost of Capital for Foreign Projects	474
	<i>Opening Case 19: GM's Target Debt Ratio in its Overseas Expansion</i>	474
19.1	The Weighted Average Cost of Capital	476
19.2	The Optimum Capital Structure	480
19.3	The Marginal Cost of Capital and Investment Decisions	482
19.4	Cultural Values and Capital Structure	484
	<i>Summary</i>	486
	<i>Questions</i>	486
	<i>Problems</i>	487
	<i>References</i>	488
	<i>Case Problem 19: Do Multinational Firms Have Lower Debt Ratios than Domestic Firms?</i>	488

Chapter 20: Corporate Performance of Foreign Operations	490
<i>Opening Case 20: Offshore Workers Increase IBM's Profits</i>	490
20.1 The Global Control System and Performance Evaluation	491
20.2 International Taxation	499
20.3 Transfer Pricing and Tax Planning	506
<i>Summary</i>	509
<i>Questions</i>	510
<i>Problems</i>	510
<i>References</i>	513
<i>Case Problem 20: Advanced Technology's Ethical Dilemma</i>	514
Web Resources and Internet Exercises	518
Answers to Selected End-of-Chapter Problems	538
Glossary	545
Index	564

Figures

1.1	An integrated decision-making model in global finance	15
1.2	Expanded opportunity set for international business	16
2.1	Economic freedom and consumption	35
2.2	The Mercosur trade group	40
2.3	Progress on tariffs	50
2.4	The tax on trade	51
2.5	An organizational chart of the World Trade Organization	52
3.1	Global capital flows: sources and uses of global capital in 2001	69
3.2	The J-curve effect	71
3.3	US trade balances with Mexico and China	75
4.1	Argentine pesos per US dollar (inverted scale)	83
4.2	Market determination of exchange rates	84
4.3	How an increase in demand for pounds affects the equilibrium	85
4.4	How an increase in supply of pounds affects the equilibrium	86
4.5	The US dollar under floating exchange rates	90
4.6	The US dollar's doldrums fuel the euro's rise	101
4.7	Mexican international reserves in 1994	107
4.8	Mexican pesos per US dollar (inverted scale)	108
5.1	Shares of the reported foreign-exchange trading volume, 2001	114
5.2	A map of major foreign-exchange markets with time zones	117
5.3	Bank of Japan intervention	119
5.4	Relationships among various financial rates	136
5.5	Covered-interest arbitrage	139
6.1	The number of currency futures contracts traded on the Chicago Mercantile Exchange	158
6.2	The market share for currency futures, 2001	158

6.3	The market value of a call option	166
6.4	The market value of a put option	167
6.5	Profit–loss profiles for an option holder	168
7.1	The structure of a parallel loan	179
7.2	An interest rate swap	184
7.3	A currency swap	186
7.4	Motivation for the interest rate swap	188
7.5	Motivation for the currency swap	190
7.6	The size of the over-the-counter derivatives market	194
8.1	Technical analysis: charting and the filter rule; peaks, troughs, trends, resistance, and support levels illustrated for the \$/DM	205
8.2	Technical analysis: moving-average rule (5- and 20-day moving averages)	206
9.1	Survey results of 110 chief financial officers	237
10.1	Exchange rates for the Brazilian real and the US dollar	257
11.1	Asian markets boom as foreigners pile in	264
11.2	International interest rate linkages	272
11.3	Major stock exchanges as a share of world stock market capitalization	283
11.4	Developing countries' privatization revenues	284
11.5	(a) Net financial flows to developing countries, 1995–2002; (b) net financial flows to developing countries from the private sector, 1995–2002	285
11.6	Stock prices and gross domestic product	290
11.7	The boom and bust of the US and Japanese stock markets	292
12.1	The real exchange rate between Argentina and Brazil	294
12.2	Currency devaluations for five crisis countries	303
12.3	Stock market drops for five crisis countries	303
13.1	The process of a typical trade transaction	326
13.2	US arms exports and offset obligations	343
15.1	Corporate paradise	379
15.2	The recent financial performance of Navistar International	396
16.1	All for one, and one for all	399
16.2	The security market line	403
16.3	An efficient frontier	407
16.4	An optimal portfolio	408
16.5	Gains from international diversification	409
16.6	Risk–return trade-offs of international portfolios, 1926–97	411
16.7	Efficient international portfolios	413
16.8	Total American investment in foreign securities	415
16.9	Hedge funds: the number of funds and the net new assets	416
16.10	Key financial statistics of DaimlerChrysler	423
16.11	DaimlerChrysler's revenues and profits	423
17.1	Net inward FDI flows to developing countries, 1995–2003	430
17.2	FDI as the share of GDP in developing countries, 1995–2003	431
17.3	Privatization and M&A in developing countries, 1995–2003	431
17.4	Incentives for foreign direct investment	432
17.5	Corporate ownership in five major countries	434
17.6	A pickup in merger activity	437

17.7	Major oil companies: their reserves and market capitalization	444
18.1	The risk–return trade-off and company goals	461
18.2	Expropriation acts, by year	465
19.1	GM’s Asia-Pacific forays	475
19.2	Debt ratio and the cost of capital	482
19.3	Optimum capital budget: domestic firm versus multinational	483

Tables

2.1	Production alternatives of wheat and cameras	31
2.2	Gains to both nations from specialization and trade	31
2.3	The cost of protectionism	37
3.1	The US balance of payments (billions of US dollars)	60
3.2	The US dollar as a fraction of government reserves around the world	62
3.3	Major-country balances on current account (billions of US dollars)	64
3.4	Major-country balances on financial account (billions of US dollars)	64
3.5	World merchandise trade	65
3.6	The international investment position of the USA (billions of US dollars)	66
3.7	The international investment position of Japan (billions of US dollars)	66
4.1	The history of the international monetary system	95
4.2	The composition of the special drawing rights	97
4.3	How the EU and the USA stack up as of December 2002	100
5.1	Currency cross rates and exchange rates	121
5.2	The hamburger standard	147
6.1	Currencies traded on the Chicago Mercantile Exchange	151
6.2	Currency futures quotations in the CME: the Australian dollar	153
6.3	Buying two franc futures contracts on February 1	156
