

CONTENTS

Assumptions and Conventions	viii
Preface	ix
Executive Summary	xi
Chapter 1 Making the Transition to Stability	1
Financial Stability Overview	1
Challenges Related to Accommodative Monetary Policies Will Test Markets and Policymakers	4
Box 1.1. Mortgage Real Estate Investment Trusts: Business Model Risks	12
Box 1.2. First-Time Issuers: New Opportunities and Emerging Risks	17
The Euro Area Banking, Corporate, and Sovereign Nexus	31
Global Banking Challenges: Profitability, Asset Quality, and Leverage	41
Box 1.3. Financial Regulatory Reform Update	47
Box 1.4. Recent Financial Sector Assessment Program Mission Findings	49
Making the Transition to Stability	50
Annex 1.1. Exploring the Factors Driving Bank Interest Rates on Corporate Loans	53
Annex 1.2. Euro Area Corporate Debt Overhang and Implications for Bank Asset Quality	57
Box 1.5. The GFSR Analysis of Corporate Credit Quality versus Bank Stress Tests	61
References	62
Chapter 2 Assessing Policies to Revive Credit Markets	63
Summary	63
Introduction	63
Recent Developments in Credit Markets	63
What Policies Have Been Implemented to Support Credit?	67
Box 2.1. Policies to Diversify Credit Options for Small and Medium Enterprises in Europe	70
Are Current Policies on Target?	71
Box 2.2. Challenges in the Structural Estimation of Credit Supply and Demand	76
Box 2.3. The Effect of the Liquidity Crisis on Mortgage Lending	82
Designing Effective Policies for Reviving Credit Markets	83
Box 2.4. Policy Measures to Finance Small and Medium Enterprises during Crises: The Case of Korea	84
Box 2.5. Lessons from the Nordic Banking Crises	87
Annex 2.1. Previous Findings in the Literature on Credit Constraints	90
Annex 2.2. Determinants of Bank Lending Standards	98
Annex 2.3. A Model of Bank Lending	98
References	101
Chapter 3 Changes in Bank Funding Patterns and Financial Stability Risks	105
Summary	105
Introduction	106
Bank Funding Structures: Determinants and Recent Developments	107
Box 3.1. Typology of Bank Funding	108

Box 3.2. What the Crisis Taught Us about Bank Funding	113
Are Bank Funding Structures Relevant to Financial Stability?	114
Box 3.3. Changes in Cross-Border Bank Funding Sources	117
Crisis and the Impact of Regulatory Reforms on the Pricing of Bank Liabilities	119
Box 3.4. Bank Funding in Emerging Market Economies and the Impact of Regulatory Reforms	121
Box 3.5. Investor Base for Bail-in Debt and Bank Bond Ratings	126
Summary and Policy Recommendations	131
Annex 3.1. Data Description and Additional Empirical Results	134
Annex 3.2. Regulatory Developments Affecting Bank Funding	139
Annex 3.3. Bank Bond Pricing Model	143
References	147
Glossary	149
Annex: IMF Executive Board Discussion Summary	157
Statistical Appendix	159
Figures	
1. Major Net Exporters and Importers of Capital in 2012	161
2. Sovereign Credit Default Swap Spreads	162
3. Selected Credit Default Swap Spreads	163
4. Selected Spreads	164
5. Implied Volatility Indices	165
6. United States: Corporate Bond Market	166
7. Euro Area: Corporate Bond Market	167
8. United States: Commercial Paper Market	168
Tables	
1. Capital Market Size: Selected Indicators, 2012	169
2. MSCI Equity Market Indices	170
3. Emerging Markets Bond Index: EMBI Global Sovereign Yield Spreads	172
4. Emerging Market Private External Financing: Total Bonds, Equities, and Loans	174
5. Emerging Market Private External Financing: Bonds	177
6. Emerging Market Private External Financing: Equities	179
7. Emerging Market Private External Financing: Loans	181
8. Equity Valuation Measures: Dividend-Yield Ratios	184
9. Equity Valuation Measures: Price/Earnings Ratios	185
10. Emerging Markets: Mutual Funds	186
Tables	
1.1. Market-Implied Interest Rate Pricing versus Historical Cycles	6
1.2. Bond Portfolio Interest Rate Sensitivities	9
1.3. Structure of the Japanese Government Bond Market	28
1.4. Foreign Assets Held by Japanese Investor Groups, end-2012	28
1.5. Japan Scenarios: Complete, Incomplete, and Disorderly	29
1.6. European Union Bank Deleveraging	46
1.7. Policy Recommendations	51
1.8. Determinants of Bank Interest Rates on New Small Loans	56
1.9. Amadeus Database, 2011	57
1.10. Mapping of Corporate Vulnerability Indicators to Probabilities of Default	60
1.11. Comparison of GFSR Analysis with Oliver Wyman's Stress Tests for Spain	61
1.3.1. Comparison of Bank Regulations across Jurisdictions	47
2.1. Identifying Countries with Weak Credit Growth, BIS Data	65
2.2. Identifying Countries with Weak Credit, Other Data Sources	66

2.3.	Credit Policies Implemented since 2007	72
2.4.	Determinants of Credit Growth	73
2.5.	Structural Determinants of the Supply and Demand of Bank Lending to Firms in Selected Countries	77
2.6.	Firm-Level Regressions of Changes in Debt-to-Asset Ratio for Manufacturing Firms	78
2.7.	Previous Findings in the Literature	91
2.8.	Euro Area: Determinants of Bank Lending Standards	97
2.9.	United States: Determinants of Bank Lending Standards	97
3.1.	Characteristics of Four G-SIBs in Simulation Exercise	131
3.2.	Country and Bank Coverage Statistics	135
3.3.	List of Variables Used in the Panel Data Analysis	136
3.4.	Illustration of Creditor Hierarchy and Loss Sharing under Alternative Resolution Tools	141
3.5.	Cross-Country Comparison of Covered Deposits, end-2010	148

1.43.	Leverage Ratios by Firm Size, 2011	34
1.44.	Share of Debt at Firms with Various Debt-to-Assets Ratios, 2011	34
1.45.	Share of Debt at Firms with Various Interest Coverage Ratios, 2011	34
1.46.	Nonperforming Corporate Loans	35
1.47.	Corporate Expected Default Frequencies and Bank Loan Interest Rates	35
1.48.	Listed Firms: Changes in Debt, Capital Expenditures, and Dividends	36
1.49.	Factors Affecting Bank Interest Rates on Corporate Loans	36
1.50.	Interest Rates on Small Bank Loans and Model-Based Factor Decomposition	37
1.51.	Corporate Debt Overhang	38
1.52.	Distribution of Estimated Corporate Sector Probabilities of Default	39
1.53.	Potential Losses on Corporate Loans and Banking System Buffers	40
1.54.	Large Bank Tier 1 Ratios	43
1.55.	Large Bank Tangible Leverage Ratios, 2012:Q4	43
1.56.	Large Bank Tier 1 Capital and Tangible Leverage Ratios	44
1.57.	Bank Profitability Comparison	44
1.58.	Bank Profitability and Market Valuation of Assets	45
1.59.	Large Bank Capitalization	46
1.60.	Normalization of Monetary Policy: Smooth or Turbulent?	51
1.61.	France: Deviations from Cointegrating Equilibrium	54
1.62.	Spain and Italy: Deviations from the Cointegrating Equilibrium	55
1.63.	Leverage, Profitability, and Debt at Risk	58
1.64.	Bank Lending Rates to Small and Medium Enterprises	58
1.65.	Projected Corporate Debt Overhang in Italy, Portugal, and Spain	59
1.66.	Probabilities of Default in the Corporate Sector	60
1.1.1.	Example of the Real Estate Investment Trust Maturity Transformation Process	12
1.1.2.	Holdings of Agency Mortgage-Backed Securities	13
1.1.3.	Real Estate Investment Trust Dependence on Short-Term Financing	13
1.1.4.	REITs' Agency MBS Holdings versus GSEs' MBS Investment Portfolio Holdings	13
1.2.1.	International Bond Debut Issuance	17
1.2.2.	Investor Base by Region and Type	17
1.2.3.	Performance of Frontier Markets during Emerging Market Bond Sell-Off	18
1.2.4.	Size of Selected Frontier Market International Bond Issuance	18
2.1.	Real Credit Growth	64
2.2.	Perceived Obstacles in Access to Finance	66
2.3.	Interest Rate Spread between Loans to SMEs and to Larger Firms	67
2.4.	Corporate and Household Debt Outstanding	68
2.5.	Stock Price Index	68
2.6.	Real House Price Index	68
2.7.	Relative Number of Credit Supply and Demand Policies Currently in Place	69
2.8.	Decomposing Credit Growth: Corporate Loans	74
2.9.	Decomposing Credit Growth: Mortgage Loans	75
2.10.	Decomposition of Change in Debt-to-Asset Ratios for Firms	79
2.11.	Real Total Credit Growth, by Borrowing Sector	79
2.12.	Decomposing Lending Standards: Corporate Loans	95
2.13.	Decomposing Lending Standards: Mortgage Loans	96
2.14.	Effects of a Tightening of Lending Supply and a Drop in Lending Demand	98
2.15.	Fitted Supply and Demand Curves for Bank Loans to Firms	99
2.3.1.	U.S. Banks' Core Deposits-to-Assets Ratio	82

2.4.1.	Outstanding Balance and Growth of SME Loans	84
2.4.2.	Financial Support Programs for SMEs	84
2.4.3.	Outstanding Balance and Growth of Credit Guarantees for SME Loans	85
2.4.4.	Aggregate Credit Ceiling Loans	85
2.4.5.	Number and Growth of Bankrupt Enterprises	86
2.4.6.	Growth in Number of Employees	86
2.5.1.	Real House Price Index in the Nordic Countries	87
2.5.2.	Lending Growth by Banks	87
3.1.	Banks' Liability Structures across Major Economies and Regions	107
3.2.	Banks' Long-Term Wholesale Funding across Major Economies and Regions: Outstanding as of July 31, 2013	109
3.3.	Evolution of Bank Funding Structures, Global and Systemically Important Banks	110
3.4.	Evolution of Bank Funding Structures, Advanced and Emerging Market Economies	110
3.5.	Determinants of Bank Funding	112
3.6.	Wholesale Bank Funding	114
3.7.	Regulatory Capital Ratios across Major Economies and Regions	115
3.8.	Asset Encumbrance: December 2007 and June 2013	115
3.9.	Share of Retained Bank-Covered Bonds in Europe	116
3.10.	Contribution of Funding Characteristics to Bank Distress	116
3.11.	Evolution of Bank Funding Characteristics	119
3.12.	Priority of Claims of Bank Liabilities	120
3.13.	Bank Bond Yield to Maturity at Issuance: Selected Advanced Economies	127
3.14.	Debt Pricing under Depositor Preference and Asset Encumbrance	129
3.15.	Debt Pricing under Bail-in Power	130
3.16.	Simulation Results for Specific Banks	131
3.17.	Equity Value for Original Shareholders under Bail-in Regime Converting Debt to Equity	132
3.18.	Contribution of Specific Variables to Bank Distress in Probit Models	138
3.19.	Basel III Minimum Capital Requirements and Buffers	140
3.20.	Pricing of Senior and Subordinated Debt and Equity	144
3.21.	Pricing of Liabilities with Depositor Preference and Asset Encumbrance	145
3.22.	Pricing of Liabilities under Bail-in Power	146
3.1.1.	Breakdown of Bank Liabilities	108
3.3.1.	Euro Area: Foreign Holding of Bank Debt Securities	117
3.3.2.	Non-Euro Area: Foreign Holding of Bank Debt Securities	117
3.3.3.	U.S. Money Market Fund Exposure to European and Other Banks	118
