Contents

Preface xiii

CHAPTER 1

Supply, Demand, and Equilibrium 1

1.1 Demand 1

Demand versus Quantity Demanded 1
Demand Curves 2
Changes in Demand 3
Market Demand 7
The Shape of the Demand Curve 7
The Wide Scope of Economics 10

1.2 Supply 10

Supply versus Quantity Supplied 10

1.3 Equilibrium 13

The Equilibrium Point 13
Changes in the Equilibrium Point 15
Summary 23
Author Commentary 24
Review Questions 25
Numerical Exercises 25
Problem Set 26

CHAPTER 2

Prices, Costs, and the Gains from Trade 31

2.1 Prices 31

Absolute versus Relative Prices 32
Some Applications 34

2.2 Costs, Efficiency, and Gains from Trade 35

Costs and Efficiency 35
Specialization and the Gains from Trade 37
Why People Trade 39
Summary 41
Author Commentary 41
Review Question 41
Numerical Exercises 42
Problem Set 42

CHAPTER 3

The Behavior of Consumers 45

3.1 Tastes 45

Indifference Curves 45
Marginal Values 48
More on Indifference Curves 53

3.2 The Budget Line and the Consumer's Choice 53

The Budget Line 54
The Consumer's Choice 56

3.3 Applications of Indifference Curves 59

Standards of Living 59
The Least Bad Tax 64

Summary 69

Author Commentary 69

Review Questions 70

Numerical Exercises 70

Problem Set 71

Appendix to Chapter 3 77

Cardinal Utility 77
The Consumer's Optimum 79

CHAPTER 4

Consumers in the Marketplace 81

4.1 Changes in Income 81

Changes in Income and Changes in the Budget Line 81
Changes in Income and Changes in the Optimum Point 82
The Engel Curve 84

4.2 Changes in Price 85

Changes in Price and Changes in the Budget Line 85
Changes in Price and Changes in the Optimum Point 86
The Demand Curve 88

4.3 Income and Substitution Effects 90

Two Effects of a Price Increase 90
Why Demand Curves Slope Downward 94
The Compensated Demand Curve 99

4.4 Elasticities 100

Income Elasticity of Demand 100

Price Elasticity of Demand 102

*Summary 105**Author Commentary 106**Review Questions 106**Numerical Exercises 107**Problem Set 109***CHAPTER 5****The Behavior of Firms 115****5.1 Weighing Costs and Benefits 116**

A Farmer's Problem 116

The Equimarginal Principle 120

5.2 Firms in the Marketplace 121

Revenue 122

Costs 125

*Summary 131**Author Commentary 131**Review Questions 131**Numerical Exercises 132**Problem Set 133***CHAPTER 6****Production and Costs 137****6.1 Production and Costs in the Short Run 137**

The Total, Marginal, and Average Products of Labor 138

Costs in the Short Run 141

6.2 Production and Costs in the Long Run 147

Isoquants 147

Choosing a Production Process 151

The Long-Run Cost Curves 154

Returns to Scale and the Shape of the Long-Run Cost Curves 157

6.3 Relations Between the Short Run and the Long Run 159

From Isoquants to Short-Run Total Cost 159

From Isoquants to Long-Run Total Cost 160

Short-Run Total Cost versus Long-Run Total Cost 161

A Multitude of Short Runs 162

Short-Run Average Cost versus Long-Run Average Cost 163

*Summary 164**Author Commentary 165**Review Questions 165**Numerical Exercises 166**Problem Set 167***CHAPTER 7****Competition 171****7.1 The Competitive Firm 171**

Revenue 173

The Firm's Supply Decision 174

Shutdowns 177

The Elasticity of Supply 180

7.2 The Competitive Industry in the Short Run 180

Defining the Short Run 180

The Competitive Industry's Short-Run Supply Curve 181

Supply, Demand, and Equilibrium 182

Competitive Equilibrium 182

The Industry's Costs 185

7.3 The Competitive Firm in the Long Run 186

Long-Run Marginal Cost and Supply 186

Profit and the Exit Decision 186

The Firm's Long-Run Supply Curve 188

7.4 The Competitive Industry in the Long Run 189

The Long-Run Supply Curve 190

Equilibrium 193

Changes in Equilibrium 195

Application: The Government as a Supplier 198

Some Lessons Learned 199

7.5 Relaxing the Assumptions 199

The Break-Even Price 200

Constant-Cost Industries 201

Increasing-Cost Industries 201

Decreasing-Cost Industries 203

Equilibrium 204

7.6 Applications 204

Removing a Rent Control 204

A Tax on Motel Rooms 207

Tipping the Busboy 208

7.7 Using the Competitive Model 209

Summary 211
Author Commentary 212
Review Questions 212
Numerical Exercises 213
Problem Set 217

CHAPTER 8**Welfare Economics and the Gains from Trade 223****8.1 Measuring the Gains from Trade 224**

Consumers' and Producers' Surplus 224

8.2 The Efficiency Criterion 233

Consumers' Surplus and the Efficiency Criterion 234
 Understanding Deadweight Loss 238
 Other Normative Criteria 241

8.3 Examples and Applications 242

Subsidies 242
 Price Ceilings 244
 Tariffs 247
 Theories of Value 252

8.4 General Equilibrium and the Invisible Hand 254

The Fundamental Theorem of Welfare Economics 255
 An Edgeworth Box Economy 257
 General Equilibrium with Production 260
Summary 265
Author Commentary 266
Review Questions 266
Problem Set 267

Appendix to Chapter 8 275

Normative Criteria 275
 Some Normative Criteria 276
 Optimal Population 280
Author Commentary 281

CHAPTER 9**Knowledge and Information 283****9.1 The Informational Content of Prices 283**

Prices and Information 283
 The Costs of Misallocation 288

9.2 Asymmetric Information 297

Signaling: Should Colleges Be Outlawed? 297
 Adverse Selection and the Market for Lemons 300
 Moral Hazard 302
 Principal-Agent Problems 303
 A Theory of Unemployment 306

9.3 Financial Markets 308

Efficient Markets for Financial Securities 308
 Stock Market Crashes 310
Summary 311
Author Commentary 311
Review Questions 311
Problem Set 312

CHAPTER 10**Monopoly 317****10.1 Price and Output under Monopoly 318**

Monopoly Pricing 318
 Elasticity and Marginal Revenue 319
 Measuring Monopoly Power 320
 Welfare 323
 Monopoly and Public Policy 324

10.2 Sources of Monopoly Power 328

Natural Monopoly 328
 Patents 330
 The History of Photography: Patents in the Public Domain 331
 Resource Monopolies 332
 Economies of Scope 332
 Legal Barriers to Entry 332

10.3 Price Discrimination 333

First-Degree Price Discrimination 334
 Third-Degree Price Discrimination 336
 Two-Part Tariffs 345
Summary 348
Author Commentary 349
Review Questions 349
Numerical Exercises 350
Problem Set 351

CHAPTER 11**Market Power, Collusion,
and Oligopoly 357**

- 11.1 Acquiring Market Power 358**
 Mergers 358
 Horizontal Integration 358
 Vertical Integration 361
 Predatory Pricing 363
 Resale Price Maintenance 365
- 11.2 Collusion and the Prisoner's
Dilemma: An Introduction to
Game Theory 369**
 Game Theory and the Prisoner's
Dilemma 370
 The Prisoner's Dilemma and the
Breakdown of Cartels 373
- 11.3 Regulation 377**
 Examples of Regulation 377
 What Can Regulators Regulate? 382
 Creative Response and Unexpected
Consequences 382
 Positive Theories of Regulation 384
- 11.4 Oligopoly 385**
 Contestable Markets 385
 Oligopoly with a Fixed Number
of Firms 387
- 11.5 Monopolistic Competition and
Product Differentiation 390**
 Monopolistic Competition 390
 The Economics of Location 392
Summary 392
Author Commentary 393
Review Questions 393
Numerical Exercises 394
Problem Set 396

CHAPTER 12**The Theory of Games 399**

- 12.1 Game Matrices 399**
 Pigs in a Box 399
 The Prisoner's Dilemma Revisited 401
 Pigs in a Box Revisited 402
 The Copycat Game 405
 Nash Equilibrium as a Solution
Concept 405
 Mixed Strategies 407
 Pareto Optima 408

Pareto Optima versus Nash
Equilibria 410

- 12.2 Sequential Games 411**
 An Oligopoly Problem 411
Summary 413
Author Commentary 414
Problem Set 414

CHAPTER 13**External Costs and Benefits 417**

- 13.1 The Problem of Pollution 417**
 Private Costs, Social Costs, and
Externalities 417
 Government Policies 420
- 13.2 The Coase Theorem 424**
 The Doctor and the Confectioner 425
 The Coase Theorem 427
 The Coase Theorem in the
Marketplace 429
 External Benefits 432
 Income Effects and the Coase
Theorem 433
- 13.3 Transactions Costs 436**
 Trains, Sparks, and Crops 436
 The Reciprocal Nature of the
Problem 438
 Sources of Transactions Costs 439
- 13.4 The Law and Economics 443**
 The Law of Torts 443
 A Positive Theory of the Common
Law 446
 Normative Theories of the Common
Law 448
 Optimal Systems of Law 449
Summary 449
Author Commentary 450
Review Questions 450
Problem Set 451

CHAPTER 14**Common Property and Public
Goods 459**

- 14.1 The Tragedy of the
Commons 459**
 The Springfield Aquarium 459
 It Can Pay to Be Different 463
 Common Property 465

- 14.2 Public Goods 467**
 Some Market Failures 467
 The Provision of Public Goods 468
 The Role of Government 469
 Schemes for Eliciting Information 471
 Reaching the Efficient Outcome 471
Summary 472
Review Questions 473
Numerical Exercises 473
Problem Set 473

CHAPTER 15

The Demand for Factors of Production 477

- 15.1 The Firm's Demand for Factors in the Short Run 477**
 The Marginal Revenue Product of Labor 477
 The Algebra of Profit Maximization 479
 The Effect of Plant Size 482
- 15.2 The Firm's Demand for Factors in the Long Run 483**
 Constructing the Long-Run Labor Demand Curve 483
 Substitution and Scale Effects 485
 Relationships Between the Short Run and the Long Run 488
- 15.3 The Industry's Demand Curve for Factors of Production 490**
 Monopsony 490
- 15.4 The Distribution of Income 492**
 Factor Shares and Rents 492
 Producers' Surplus 494
Summary 496
Review Questions 497
Numerical Exercises 498
Problem Set 499

CHAPTER 16

The Market for Labor 501

- 16.1 Individual Labor Supply 501**
 Consumption versus Leisure 501
 Changes in the Budget Line 504
 The Worker's Supply of Labor 506

- 16.2 Labor Market Equilibrium 509**
 Changes in Nonlabor Income 510
 Changes in Productivity 510
- 16.3 Differences in Wages 514**
 Human Capital 514
 Compensating Differentials 515
 Access to Capital 516
- 16.4 Discrimination 517**
 Theories of Discrimination 518
 Wage Differences Due to Worker Preferences 519
 Human Capital Inheritance 519
Summary 520
Review Questions 521
Problem Set 521

CHAPTER 17

Allocating Goods Over Time 525

- 17.1 Bonds and Interest Rates 525**
 Relative Prices, Interest Rates, and Present Values 526
 Bonds Denominated in Dollars 529
 Default Risk 530
- 17.2 Applications 531**
 Valuing a Productive Asset 531
 Valuing Durable Commodities: Is Art a Good Investment? 532
 Should You Pay with Cash or Credit? 533
 Government Debt 534
 Planned Obsolescence 535
 Artists' Royalties 536
 Old Taxes Are Fair Taxes 537
 The Pricing of Exhaustible Resources 538
- 17.3 The Market for Current Consumption 539**
 The Consumer's Choice 539
 The Demand for Current Consumption 542
 Equilibrium and the Representative Agent 544
 Changes in Equilibrium 546
- 17.4 Production and Investment 552**
 The Demand for Capital 552
 The Supply of Current Consumption 553
 Equilibrium 554

Summary 556
Author Commentary 556
Review Questions 556
Problem Set 557

CHAPTER 18

Risk and Uncertainty 563

- 18.1 Attitudes Toward Risk 563**
 Characterizing Baskets 565
 Opportunities 566
 Preferences and the Consumer's Optimum 568
 Gambling at Favorable Odds 573
 Risk and Society 575
- 18.2 The Market for Insurance 576**
 Imperfect Information 576
 Uninsurable Risks 578
- 18.3 Futures Markets 578**
 Speculation 579
- 18.4 Markets for Risky Assets 581**
 Portfolios 582
 The Geometry of Portfolios 583
 The Investor's Choice 585
 Constructing a Market Portfolio 588
- 18.5 Rational Expectations 589**
 A Market with Uncertain Demand 589
 Why Economists Make Wrong Predictions 592
Summary 595
Author Commentary 596
Review Questions 596
Problem Set 597

CHAPTER 19

What Is Economics? 599

- 19.1 The Nature of Economic Analysis 599**
 Stages of Economic Analysis 599
 The Value of Economic Analysis 602

- 19.2 The Rationality Assumption 603**
 The Role of Assumptions in Science 603
 All We Really Need: No Unexploited Profit Opportunities 604
- 19.3 What Is an Economic Explanation? 606**
 Celebrity Endorsements 606
 The Size of Shopping Carts 607
 Why Is There Mandatory Retirement? 608
 Why Rock Concerts Sell Out 609
 99¢ Pricing 610
 Rationality Revisited 611
- 19.4 The Scope of Economic Analysis 611**
 Laboratory Animals as Rational Agents 611
Author Commentary 615
Problem Set 615

APPENDIX A

Calculus Supplement 619

APPENDIX B

Answers to All the Exercises 645

APPENDIX C

Answers to Problem Sets 657

Glossary 673
