## Contents

### PART I  INTRODUCTION TO USES AND METHODS OF MARKETING RESEARCH  

1  INTRODUCTION TO MARKETING RESEARCH  
   1.1  Research and Marketing Strategy  
      1.1.1  Stages of marketing development  
   1.2  Defining Marketing Research  
   1.3  The Development of Marketing Research as a Profession  
      1.3.1  Marketing research today  
   1.4  Marketing Research and the Development of the Marketing Plan  
      1.4.1  The relationship between data, information and knowledge  
   1.5  Ethics in Marketing Research  
      1.5.1  Ethical research issues  
      1.5.2  Guidelines for conducting ethical research  

2  RESEARCH AS A PROCESS  
   2.1  The Uses of Marketing Research  
      2.1.1  Marketing research and the organization  
      2.1.2  Research issues  
   2.2  The Research Process  
      2.2.1  Determine the research question  
      2.2.2  Sources of information  
      2.2.3  Choose the research approach  
      2.2.4  Planning the research method  
      2.2.5  Conducting research and reporting findings and recommendations  

---

# Marketing Research

## 2.3 Research Approaches
- **2.3.1 Descriptive research**
- **2.3.2 Exploratory research**
- **2.3.3 Causal research**

## 2.4 Research Methods
- **2.4.1 Quantitative vs. qualitative research**
- **2.4.2 Research methodologies**

## 3 Determining the Research Question
- **3.1 Critical Thinking**
  - **3.1.1 Critical thinking and faulty assumptions**
- **3.2 The Critical Thinking Process**
  - **3.2.1 Challenging assumptions**
  - **3.2.2 Using internal data to challenge assumptions**
  - **3.2.3 Generating new ideas**
  - **3.2.4 Making a correct assumption**
- **3.3 Obtaining Internal Secondary Data to Help in Critical Thinking**
  - **3.3.1 Obtaining existing internal data from people**
  - **3.3.2 Conducting internal interviews**
  - **3.3.3 Deciding not to conduct additional research**
- **3.4 Determining the Research Question**
  - **3.4.1 Decision-making process**
  - **3.4.2 Purpose of the research question**
  - **3.4.3 Research questions and research approaches**
  - **3.4.4 Writing the question**

## 4 The Research Proposal
- **4.1 The Research Proposal**
  - **4.1.1 Reasons for writing a research proposal**
- **4.2 Components of a Research Proposal**
  - **4.2.1 Components of a research proposal – the problem**
  - **4.2.2 Components of a research proposal – the methodology**
  - **4.2.3 Components of a research proposal – analysis and findings**
  - **4.2.4 Appendices**
### 4.3 The Research Industry

- **4.3.1 Structure of internal marketing research departments**
- **4.3.2 External providers of marketing research**
- **4.3.3 Guidelines for choosing a research company**
- **4.3.4 The global research industry**
- **4.3.5 Marketing research associations**

### 5 CULTURAL CONSIDERATIONS FOR MARKETING RESEARCH

- **5.1 International Marketing Research Challenges**
  - **5.1.1 Cross-cultural research at home**
  - **5.1.2 Unique research questions**
  - **5.1.3 Availability and comparability of secondary data**
  - **5.1.4 Level of cultural difference**
- **5.2 Language Issues**
  - **5.2.1 Translation needs**
  - **5.2.2 Translation during the research process**
  - **5.2.3 Back translation**
- **5.3 Hofstede’s Dimensions of Culture**
  - **5.3.1 Power distance**
  - **5.3.2 Uncertainty avoidance**
  - **5.3.3 Individualism versus collectivism**
  - **5.3.4 Masculinity versus femininity**
- **5.4 Marketing Ethics and Cultural Values**
  - **5.4.1 Stereotyping**
  - **5.4.2 Prejudice**

### 6 CONDUCTING SECONDARY RESEARCH

- **6.1 External Secondary and Primary Research Data**
  - **6.1.1 Institutions that collect secondary data**
  - **6.1.2 Benefits of conducting secondary research**
  - **6.1.3 Requirements of secondary data**
- **6.2 Secondary Research Issues**
  - **6.2.1 Secondary research on the external environment**
  - **6.2.2 Secondary research on the industry**
  - **6.2.3 Secondary research on the consumer**
  - **6.2.4 Organizing secondary data**
### Chapter 6.3 Sources of Quantitative and Qualitative Secondary Data

- **6.3.1 Quantitative secondary data**
- **6.3.2 Types of qualitative secondary data**
- **6.3.3 Competitor secondary data**

### Chapter 6.4 Steps in the Secondary Research Process

- **6.4.1 Finding data online**
- **6.4.2 Planning the search**
- **6.4.3 Online search strategy**
- **6.4.4 Retrieving online information**
- **6.4.5 Combining the uses of secondary and primary data**

### PART II QUALITATIVE MARKETING RESEARCH

#### Chapter 7 Choosing Participants for Qualitative Research

- **7.1 Choosing Participants for Qualitative Research**
  - **7.1.1 Focus group research participant selection issues**
  - **7.1.2 Interview research participant selection issues**
  - **7.1.3 Observation research participant selection issues**
  - **7.1.4 Professional recruiters**

- **7.2 Constructing a Sample for Qualitative Research**
  - **7.2.1 Convenience sampling**
  - **7.2.2 Snowballing**
  - **7.2.3 Purposive sampling**

- **7.3 The Purposive Sampling Process**
  - **7.3.1 Identifying characteristics**
  - **7.3.2 Identifying organizations or groups**
  - **7.3.3 An invitation to participate**

- **7.4 Using Segmentation Characteristics to Develop a Profile**
  - **7.4.1 Choosing participants based on demographics**
  - **7.4.2 Psychographic characteristics**
  - **7.4.3 Geographic characteristics**
  - **7.4.4 Usage characteristics**

#### Chapter 8 Planning and Conducting Focus Groups

- **8.1 Rationale for Using Focus Group Methodology**
  - **8.1.1 Advantages of using focus groups**
  - **8.1.2 Disadvantages of conducting focus groups**
  - **8.1.3 Combining focus group and survey research**
8.2 Steps in Developing the Focus Group Methodology
   8.2.1 Focus Group Preparation 128
   8.2.2 Conducting a focus group 131
   8.2.3 Focus group analysis 132

8.3 Desirable Moderator Characteristics and Skills
   8.3.1 Desirable personal characteristics 133
   8.3.2 Required skills 134

8.4 Handling Group Conflict
   8.4.1 Stages of Group Development 135
   8.4.2 Focus groups using nominal grouping 135

8.5 Other Venues for Focus Groups
   8.5.1 Videoconferencing focus groups 137
   8.5.2 Online focus groups 137

9 IN-DEPTH, INTERCEPT AND EXPERT INTERVIEWS

9.1 The Rationale for Conducting Interview Research
   9.1.1 Interview stages 142
   9.1.2 Advantages of using interviews 142
   9.1.3 Disadvantages of using interviews 144

9.2 Types of Interviews
   9.2.1 In-depth interviews 145
   9.2.2 Expert interviews 146
   9.2.3 Intercept interviews 147

9.3 Writing Questions
   9.3.1 Descriptive questions 148
   9.3.2 Causal questions 148
   9.3.3 Consequence questions 149
   9.3.4 Non-directional questions 149

9.4 Screening Participants
   9.4.1 In-depth interviews 150
   9.4.2 Intercept interviews 150
   9.4.3 Expert interviews 151

9.5 Constructing Questions
   9.5.1 General rules on writing questions 152
   9.5.2 Testing questions 153
   9.5.3 Location of interviews 154
10 PROJECTIVE, OBSERVATIONAL, ETHNOGRAPHY AND GROUNDED THEORY TECHNIQUES

10.1 Projective Techniques

10.1.1 Advantages of using projective techniques
10.1.2 Disadvantages of using projective techniques
10.1.3 Types of projective techniques
10.1.4 The process of conducting projective research

10.2 Observational Research

10.2.1 Advantages of observational research
10.2.2 Disadvantages of observational research
10.2.3 Types of observations
10.2.4 Designing the observational research process

10.3 Ethnography Research

10.3.1 Advantages and disadvantages of conducting ethnographic research
10.3.2 The process of conducting ethnographic research
10.3.3 Participant involvement in ethnographic research

10.4 Grounded Theory

10.4.1 Advantages and disadvantages of conducting grounded theory
10.4.2 The process of conducting grounded theory

PART III QUANTITATIVE MARKETING RESEARCH

11 Determining Probability Samples

11.1 Sampling Issues

11.1.1 Using a census
11.1.2 Using a sample
11.1.3 Sampling errors
11.1.4 Nonsampling errors

11.2 Determining the Target Population and the Sample Frame

11.2.1 Sampling frame
11.2.2 Probability versus nonprobability sampling

11.3 Probability Sampling

11.3.1 Simple random sampling
11.3.2 Systematic sampling
11.3.3 Stratified sampling 185
11.3.4 Cluster sampling 186

11.4 Determining a Sample Size 187
11.4.1 Calculating the size of a sample 188
11.4.2 Normal distribution and variation 189
11.4.3 Calculating the sample size when estimating a population proportion 190

12 QUESTIONNAIRE DESIGN 194

12.1 Survey Research Methodology 195
12.1.1 Uses of survey research 195
12.1.2 Questionnaire development needs 196

12.2 The Questionnaire Design Process 196
12.2.1 Question topic areas 197
12.2.2 Writing the draft and management review 197
12.2.3 Coding the question answers 198
12.2.4 Pretesting the survey form 198

12.3 Writing the Question and Answers 199
12.3.1 General guidelines for question writing 200
12.3.2 Writing the answers 202

12.4 Questionnaire Layout 205
12.4.1 Question sequence 206

12.5 Electronic Survey Forms 206
12.5.1 Using technology to design new types of responses 208

13 CONDUCTING SURVEYS 212

13.1 Methods of Conducting Research-administered Surveys 213
13.1.1 Research-administered surveys 213
13.1.2 Self-administered surveys 214

13.2 Research-administered Survey Methods 214
13.2.1 Personally-administered surveys 215
13.2.2 Location of personal surveying 215
13.2.3 Computer-aided personal surveys 216
13.2.4 Research-administered telephone surveys 216
13.3 Methods of Conducting Self-Administered Surveys

13.3.1 Mail surveys
13.3.2 Web-based self-completion

13.4 Motivating Participation

13.4.1 Providing information to potential participants
13.4.2 The use of incentives

13.5 The Survey Process

13.5.1 Training survey takers
13.5.2 Conducting a survey

PART IV ANALYZING AND REPORTING FINDINGS

14 ANALYZING VERBAL AND OTHER QUALITATIVE DATA

14.1 Analysis of Quantitative versus Qualitative Data

14.1.1 The art of qualitative research

14.2 The Analysis Process

14.2.1 Data organization
14.2.2 The art of transcribing recordings

14.3 Coding Qualitative Data

14.3.1 Using coding to develop recommendations
14.3.2 Software tools for coding

14.4 Analysis of Qualitative Data Content

14.4.1 Consumer segments
14.4.2 Consumer behavior processes
14.4.3 Comparing and contrasting consumer traits
14.4.4 Development of hypotheses
14.4.5 Analysis of ethnographic and observational research data

15 ANALYZING NUMERICAL DATA

15.1 Measuring Differences

15.1.1 Scales of measurement

15.2 The Process of Quantitative Data Analysis

15.2.1 Pre-analysis of survey data
15.3 Data Analysis using Descriptive Statistics
  15.3.1 Frequency
  15.3.2 Central tendency
  15.3.3 Dispersion measures

15.4 Data Analysis using Inferential Statistics
  15.4.1 Statistical testing process
  15.4.2 Hypothesis
  15.4.3 Level of confidence
  15.4.4 Chi-square tests

16 REPORT WRITING AND PRESENTATION
  16.1 The Importance of a Written Report
    16.1.1 Reasons for preparing a report
    16.1.2 Types of research report
  16.2 Components of a Written Report
    16.2.1 Introduction
    16.2.2 Research methodology
    16.2.3 Findings and recommendations
    16.2.4 Appendices
  16.3 Writing a Professional Report
    16.3.1 Using visual material
  16.4 An Oral Presentation
    16.4.1 Presentation structure
    16.4.2 Presentation rules
    16.4.3 Unforgivable sins made during presentations
    16.4.4 Using visuals during a presentation
