# Praise for TERRY SCHMIDT and STRATEGIC PROJECT MANAGEMENT MADE SIMPLE

“Terry’s books guide your thinking about any reasonably complex goal you’re trying to achieve. I’ve seen very few things in this space that make sense past the paper they’re written on. This is a remarkable exception.”

—David Allen, author, *Getting Things Done*

“Terry has created a powerful and actionable methodology for change. Our team at eBay got immersed in it, loved it, and have taken it to heart. I’m definitely adding this valuable tool to my management tool belt.”

—Arnold Goldberg, Senior Director, Systems Engineering, eBay

“Pound for pound, Terry is the world’s best strategic project consultant.”

—Joseph Sunio, Project Manager, Boeing

“Learn from a master as Terry offers practical hands-on tools for tackling the tough issues that keep good leaders awake at night. Terry takes you from the surreal to the real world of strategic thinking and planning.”

—James Whalen, Vice President, DirecTV, Inc.

“Most projects get off track because the rails have been improperly laid. Terry’s insightful book provides practical ways to ensure that your rails are properly aligned.”

—Gordon Peters, Founding Chairman, CEO,  
Institute for Management Studies

“We used this method to organize and execute an awards campaign that earned numerous nominations and awards, including an Oscar®.”

—Don Levy, Senior Vice President, Sony Pictures Digital

“We are actively using these tools to develop global players, local champions, and knowledge entrepreneurs who make a difference in the world.”

—Dr. Booncharoen Sirinaovakul, PhD, Dean, Faculty of Engineering, King  
Mongkut’s University of Technology Thonburi, Thailand

“Terry provides a clear and compelling methodology for creating enterprise-wide strategies that integrate all of our sub departments. This is a must-read book for all leaders who want to revitalize their organization.”

—Dale Hough, Chief of Reengineering,  
Los Angeles County Assessor’s Office

“This book provides concise, simple, and highly effective tools to turn problems into action plans. No project is too complex when broken down using Terry’s four strategic questions and his Logical Framework tool.”

—Anne Wu, Lean Six Sigma Black Belt, 3M Unitek
