About the Author	xiii
About the Technical Reviewers	xv
Introduction	xvii
■ Chapter 1: HTML5 and JavaScript Essentials	1
The canvas Element	2
Drawing Rectangles	3
Drawing Complex Paths	4
Drawing Text	6
Customizing Drawing Styles (Colors and Textures)	7
Drawing Images.....	8
Transforming and Rotating	9
The audio Element.....	10
The image Element	13
Image Loading	13
Sprite Sheets	14
Animation: Timer and Game Loops.....	15
requestAnimationFrame	16
Summary.....	18
■ Chapter 2: Creating a Basic Game World.....	19
Basic HTML Layout.....	19
Creating the Splash Screen and Main Menu	20
Level Selection	23

Loading Images	26
Loading Levels	29
Animating the Game	30
Handling Mouse Input	33
Defining Our Game States	35
Summary	38
■ Chapter 3: Physics Engine Basics	39
Box2D Fundamentals	39
Setting Up Box2D	40
Defining the World	41
Adding Our First Body: The Floor	41
Drawing the World: Setting Up Debug Drawing	43
Animating the World	45
More Box2D Elements	47
Creating a Rectangular Body	47
Creating a Circular Body	49
Creating a Polygon-Shaped Body	50
Creating Complex Bodies with Multiple Shapes	52
Connecting Bodies with Joints	54
Tracking Collisions and Damage	57
Contact Listeners	58
Drawing Our Own Characters	61
Summary	64
■ Chapter 4: Integrating The Physics Engine.....	65
Defining Entities	65
Adding Box2D	68
Creating Entities	70
Adding Entities to Levels	71
Setting Up Box2D Debug Drawing	73

Drawing the Entities.....	75
Animating the Box2D World.....	77
Loading the Hero.....	79
Firing the Hero.....	81
Ending the Level.....	84
Collision Damage.....	86
Drawing the Slingshot Band.....	88
Changing Levels.....	91
Adding Sound.....	92
Adding Break and Bounce Sounds.....	93
Adding Background Music.....	96
Summary.....	98
■ Chapter 5: Creating the RTS Game World.....	101
.....	101
Creating the Splash Screen and Main Menu.....	102
Creating Our First Level.....	107
Loading the Mission Briefing Screen.....	109
Implementing the Game Interface.....	113
Implementing Map Panning.....	118
Summary.....	124
■ Chapter 6: Adding Entities to Our World.....	125
.....	125
Defining Our First Entity: The Main Base.....	126
Adding Entities to the Level.....	129
Drawing the Entities.....	132
Adding the Starport.....	136
Adding the Harvester.....	139
Adding the Ground Turret.....	141

Adding the Vehicles	144
Adding the Aircraft	149
Adding the Terrain	152
Selecting Game Entities	156
Highlighting Selected Entities	159
Summary	163
■ Chapter 7: Intelligent Unit Movement.....	165
Commanding Units	165
Sending and Receiving Commands.....	167
Processing Orders	169
Implementing Aircraft Movement.....	169
Pathfinding	174
Defining Our Pathfinding Grid.....	175
Implementing Vehicle Movement	181
Collision Detection and Steering	184
Deploying the Harvester	190
Smoother Unit Movement.....	191
Summary	194
■ Chapter 8: Adding More Game Elements	195
Implementing the Basic Economy	195
Setting the Starting Money	195
Implementing the Sidebar	197
Generating Money	199
Purchasing Buildings and Units.....	200
Adding Sidebar Buttons	201
Enabling and Disabling Sidebar Buttons	203
Constructing Vehicles and Aircraft at the Starport	206
Constructing Buildings at the Base	214

Ending a Level	221
Implementing the Message Dialog Box	221
Implementing Triggers	225
Summary	230
■ Chapter 9: Adding Weapons and Combat	231
Implementing the Combat System	231
Adding Bullets	231
Combat-Based Orders for Turrets	238
Combat-Based Orders for Aircraft	242
Combat-Based Orders for Vehicles	246
Building Intelligent Enemy	251
Adding a Fog of War	254
Defining the Fog Object	255
Drawing the Fog	257
Making Fogged Areas Unbuildable	259
Summary	262
■ Chapter 10: Wrapping Up the Single-Player Campaign	263
Adding Sound	263
Setting Up Sounds	263
Acknowledging Commands	265
Messages	268
Combat	268
Building the Single-Player Campaign	269
The Rescue	269
Assault	276
Under Siege	282
Summary	292

Chapter 11: Multiplayer with WebSockets	293
Using the WebSocket API with Node.js.....	293
WebSockets on the Browser.....	293
Creating an HTTP Server in Node.js.....	296
Creating a WebSocket Server	297
Building the Multiplayer Game Lobby.....	300
Defining the Multiplayer Lobby Screen.....	300
Populating the Games List.....	302
Joining and Leaving a Game Room	306
Starting the Multiplayer Game	310
Defining the Multiplayer Level.....	310
Loading the Multiplayer Level.....	312
Summary.....	317
Chapter 12: Multiplayer Gameplay	319
The Lock-Step Networking Model	319
Measuring Network Latency.....	320
Sending Commands.....	323
Ending the Multiplayer Game	328
Ending the Game When a Player Is Defeated.....	328
Ending the Game When a Player Is Disconnected	331
Ending the Game When a Connection Is Lost	333
Implementing Player Chat	334
Summary.....	338
Index.....	341
