Chapter 17

Recipes from A to Z

In This Chapter
▶ Many, many cocktail recipes
▶ A few stories to keep things interesting

You probably bought this book just for this chapter, which lists the recipes for about a thousand drinks. Some are classic drinks that you’ve probably heard of; others are new and trendy. Most are quite good; some are strange concoctions that few people like.

This cute little icon to the right of the drink name indicates a classic drink. The appropriate glass for each drink is shown to the left of its list of ingredients. I put little stories and anecdotes in sidebars — the text that’s set apart in gray boxes.

If you’re looking for nonalcoholic drinks, see Chapter 20. You won’t find punches in this chapter either. They’re in Chapter 19.

One final note: Just in case you don’t know, the term straight up means without ice.

Chapter 17: Recipes from A to Z

The origin of the Fuzzy Navel

Twenty years ago, at a private bar on Park Avenue in New York City, two lovers of the drink, Jack Doyle, who worked for the DeKuyper company, and Ray Foley, a bartender from New Jersey, were trying to create a cocktail for a brand new product, DeKuyper Peachtree Schnapps. Jack was mixing it with orange juice and Ray was cutting an orange for garnish when Jack made the remark that he could still smell the fuzz of the DeKuyper Peachtree Schnapps through the orange juice. Ray looked at the orange, saw the word “navel” printed on the skin, and they had their name: the Fuzzy Navel.

What twisted genius created Long Island Iced Tea?

This drink does hail from Long Island, specifically the Oak Beach Inn in Hampton Bays. Spirits writer John Mariani credits bartender Robert (Rosebud) Butt as the inventor, whose original recipe called for an ounce each of clear liquors (vodka, gin, tequila, light rum), a half ounce of triple sec, some lemon juice, and a splash of cola.

This drink comes in many forms and is still popular with young drinkers, though not with those who have to get up early the next day.

2 oz. Pomegranate Juice  
2 oz. Chilled Champagne

Vic Bergeron invented the Mai Tai in 1944 at his Polynesian-style Oakland bar. He didn’t want fruit juices detracting from the two ounces of J. Wray Nephew Jamaican rum he poured as the base for his creation. He merely added a half ounce of French orgeat (an almond-flavored syrup), a half ounce of orange Curaçao, a quarter ounce of rock candy syrup, and the juice of one lime. Customer Carrie Wright of Tahiti, the first to taste the concoction, responded, “Mai tai... roe ae!” (Tahitian for “Out of this world... the best!”)

The Mai Tai became famous, and conflicting stories about its origins aggravated Bergeron so much that he elicited a sworn statement from Mrs. Wright in 1970, testifying to his authorship of the cocktail.

**The Margarita: Behind every great drink is . . .**

Using her two favorite spirits, cointreau and tequila, Margarita Sames invented this classic drink in 1948 in Acapulco, Mexico. Presenting his wife with glassware etched with Margarita!, her husband gave the drink its name.

Martini mythology

You’re likely to hear several stories about the creation of the Martini, such as the few that follow:

✔ A stranger on his way to Martinez, California, told bartender Jerry Thomas of San Francisco, California, about this drink made with gin, vermouth, bitters, and dash of maraschino.

✔ A bartender in Martinez, California, created it for a gold-miner who struck it rich: The miner ordered champagne for the house, but none was available. The bartender offered something better — a Martinez Special — some sauterne and gin. The rich miner spread the word throughout California about this Martinez Special.

✔ The drink is named after Martini & Rossi vermouth because it was first used in the drink Gin and It, which contains Gin and Martini & Rossi vermouth.

✔ The drink is named after the British army rifle, the Martini and Henry. The rifle was known for its kick, like the first sip of Gin and It.

✔ At the Knickerbocker Hotel in the early 1900s, a bartender named Martini di Arma Tiggia mixed a Martini using only a dry gin and dry vermouth.
