Dear editors,

I'm writing to modify my author affiliations. As a joint doctoral student of *Xi'an Jiaotong University* and *City University of Hong Kong*, all the research work (including research design, data collection, article writing and review responding) was finished during my stay at these two universities. Although I may be employed by *Nanjing University of Science and Technology* in the near future, it should not be listed in my affiliations at the moment. As such, ***Xi'an Jiaotong University and City University of Hong Kong* should be taken as my affiliations.**

It would be greatly appreciated if you could drop the affiliation “School of Economics and Management, Nanjing University of Science

and Technology, 200 Xiaolingwei Street, Nanjing, Jiangsu 210094, China”.

The corrected affiliations are as followed:

Chao Feng^{a,b}, Xu Zheng^b, Guijun Zhuang^{a,*}, Ruqi Li^a

^a School of Management, Xi'an Jiaotong University, 28 Xianning West Road, Xi'an, Shaanxi 710049, China

^b College of Business, City University of Hong Kong, Tat Chee Avenue, Kowloon 999077, Hong Kong
